

Dataset Name:

Stefan cel Mare University of Suceava dataset EU funded projects 2021 - 2027

Dataset Description:

This dataset provides an overview of EU-funded projects involving the Stefan cel Mare University of Suceava **updated as of 12.06.2026**, including completed and ongoing projects. The dataset includes projects referenced on CORDIS, mainly from Horizon 2020 and Horizon Europe and projects from the Erasmus+ Project Results Platform, covering KA1 and KA2 projects. Each entry includes the following publicly available information: project title, description, dates, funding program, call topic (if applicable), status, budget, and number of participants.

Compared to the previous version (last update: July 7, 2025), the dataset has been revised to reflect new projects launched after the previous publication date have been included.

Authors:

WP8 "Stefan cel Mare" University from Suceava (USV) Team.

Reasons for this dataset:

This dataset provides an oversight of EU-funded projects implemented by Stefan cel Mare University of Suceava during the 2021–2027 funding period. This dataset provides structured and accessible data that supports transparency and facilitates further analysis by researchers, students, and members of the public, including academic and journalistic inquiries.

Validity and traceability of information, sources, websites:

Information included in this dataset has been sourced from official and authoritative platforms to ensure its validity and reliability. The primary sources are:

- Ștefan cel Mare University of Suceava internal sources
- Official University Website: <https://usv.ro>
- EU and Erasmus+ Project Databases, including:
 - CORDIS (Community Research and Development Information Service)
 - Erasmus+ Project Results Platform

Data from these platforms has been aggregated and structured to provide a comprehensive overview of EU-funded projects implemented by the university during the 2021–2027 funding period. The use of institutional and European-level databases ensures the accuracy, consistency, and traceability of the information presented.

Dataset limitations

Only information available in the above mentioned databases is included in the table and some cells are therefore left blank due to lack of data.

Number of rows:

41 rows

Number of columns:

24 columns (unchanged)

Columns:

1. **Project ID:** Unique identifier assigned to each project.
2. **Project acronym:** Short name or abbreviation used to reference the project.
3. **Status:** Current state of the project (e.g., signed, ongoing, completed).
4. **Title:** Full official title of the project.
5. **Project URL:** Direct link to the project's official page or documentation.
6. **Project URL 2:** Secondary link, often to a related platform or database entry
7. **Description:** Summary of the project's objectives, scope, and activities.
8. **Start date:** Official commencement date of the project.
9. **End date:** Official completion date of the project.
10. **Organisation name:** Name of the coordinating or participating institution.
11. **Organisation name ENG:** English version of the organisation's name.
12. **Organisation ID:** Internal or EU-assigned identifier for the organisation.
13. **Vat Number organisation:** Official VAT registration number of the organisation.
14. **Organisation country:** country where the organisation is legally registered.
15. **Geographical coordinates Organisation:** Latitude and longitude of the organisation's location.
16. **Organization URL:** Official website of the organisation.
17. **Programme:** EU funding programme under which the project is financed (e.g., Horizon Europe, Erasmus+).
18. **Key Action:** Specific action or sub-programme within the funding scheme.
19. **Call:** Reference to the funding call or announcement under which the project was submitted.
20. **Role of University:** Specifies whether the university is a coordinator, partner, or beneficiary.
