

Dataset Name:

UJA - EU Funded Projects initiated between 2021–2024

Dataset Description:

This dataset includes detailed information about all European Union-funded research and innovation projects initiated between 1st January 2021 and 31st December 2024 in which the University of Jaén (UJA) is participating. The dataset includes projects referenced on CORDIS (Community Research and Development Information Service), mainly from Horizon 2020 and Horizon Europe, projects from the Erasmus+ programme, covering KA1 and KA2 projects, among others. Each entry includes publicly available information, such as project title and reference, description, dates, funding program, status, budget, number of participants, etc. It also indicates UJA's role in each project and the corresponding EU funding program and action.

Authors:

Bienvenida Gilbert López
NEOLaIA office at UJA

Reasons for this dataset:

This dataset includes structured and accessible data that provides an overview of UJA's involvement in EU-funded projects during the past five years. The information available in different databases has been integrated into one dataset, thereby facilitating further analysis.

Validity and traceability of information, sources, websites:

Data was obtained internally from the Oficina de Proyectos Internacionales ([OFIPI](#)) of the University of Jaén and from different open databases of the European Union, such as:

- The DIGITAL Dashboard - [DIGITAL Projects Profile](#)
- HORIZON Dashboard – [Organisation profile](#)
- Erasmus+ Database - [link](#)
- COST actions Database - [link](#)

Dataset limitations

The per partner EU contribution field was not available for any of the projects and is therefore not included in all entries. On the other hand, the funding amount and the number of partners were not available for COST Actions. Furthermore, other blank spaces may be found for some projects, indicating that the information was not available.

Number of rows:

54

Number of columns:

24

Columns:

1. Project ID – Unique identifier for each EU-funded project

2. Project acronym – Short name or acronym of the project
3. Status – Current status of the project (e.g., ongoing, closed)
4. Title – Full title of the project
5. Project URL – Project website
6. Project URL 2 – Official website from the EU containing project details
7. Description – Brief summary of the project's objectives (obtained from the project URL 2)
8. Start date – Project start date
9. End date – Project completion date
10. Organisation name – Name of the participating organization, in all cases, University of Jaén (UJA)
11. Organisation name ENG – English version of the organization's name
12. Organisation ID – Unique organizational identifier
13. VAT Number organisation – Organization's VAT number
14. Organisation country – Country of the participating organization, in all cases, Spain
15. Geographical coordinates Organisation – Latitude/longitude coordinates of the organization
16. Organization URL – Main website of the organization
17. Programme – EU programme under which the project is funded (e.g., Horizon Europe)
18. Key Action – Specific action within the programme
19. Call – Identifier of the EU funding call
20. Role of University – UJA's role in the project (e.g., coordinator, partner)
21. Total cost of project – Total financial budget of the project
22. EU Contribution – Total EU financial support
23. EcContribution per partner – Financial support allocated to each partner
24. Number of Participants – Total number of project partners
