

UNISA Outgoing International Mobility Dataset 2024–2025

Dataset Description

This dataset contains detailed information on outgoing Erasmus+ students from the University of Salerno during the academic year **2024–2025**.

It includes data on students' degree programs, destination universities and countries, gender, mobility activities, and citizenship status, providing a structured overview of international mobility flows.

Authors

UNISA WP8 Team

Reasons for this dataset

The dataset was developed to support transparency, data-driven decision-making, and open science within the framework of NEOLAiA WP8 activities.

It aims to provide a comprehensive view of student mobility flows from UNISA to international partner institutions, supporting institutional development and comparative studies across European universities, including those within the NEOLAiA Alliance.

Validity and traceability of information, sources, websites

All information has been obtained from official Erasmus+ mobility records maintained by the Internationalization Office of the University of Salerno.

Dataset limitations

Some fields may be partially incomplete due to:

- missing or delayed updates in administrative records
- unavailability of certain information at the time of data extraction (e.g., **citizenship / nationality fields**)

In particular, nationality-related variables and some activity breakdowns may contain missing values.
