

UNISA – DEGREE PROGRAMS 2024-2025

Methodological Notes

Dataset Name:

UNISA – Degree Programs 2024-2025

Dataset Description:

This dataset provides information on the active degree programs at the University of Salerno for the academic year **2024–2025**. It includes the number of enrolled students, categorized by gender and age, along with details on each program such as faculty, EQF level, ISCED code, and geographic coordinates.

Similar to previous years, students enrolled in discontinued degree programs have been excluded from the total count in order to provide a clear and up-to-date overview of the active academic offering.

Authors:

WP8 UNISA Team

Purpose of the Dataset:

The *UNISA – Degree Programs 2024-2025* dataset aims to offer a comprehensive overview of the university's current educational offer, highlighting enrollment trends and demographic aspects (age and gender). The dataset can support decision-making for university governance, policy planning, research activities, and public transparency. Understanding the composition of the student population allows the University of Salerno to improve services, promote inclusion, and guide future strategic actions.

Sources, Validity and Traceability:

All data originate from the **Statistical Office of the University of Salerno (UNISA)**. The dataset is based on official institutional records and has been aggregated for dissemination purposes. This ensures **accuracy, reliability, and traceability** of the information.

Dataset Limitations:

The dataset reflects the situation of active programs only and does not include students enrolled in discontinued courses (31 courses and 93 students).

Dataset Size:

- **Number of rows:** 177
- **Number of columns:** 21

Columns:

- Acronym – Abbreviation of the university
- University – Official university name
- University ENG – University name in English
- Faculty of Degree Program – Responsible faculty/department
- Faculty of Degree Program ENG – Faculty/department (English)
