

Methodological Notes

Dataset Name:

EU funded projects at Bielefeld University

Dataset Description:

This dataset provides an overview of EU funded projects at Bielefeld University, with a starting date between 01.2021 and 07.2026. It contains publicly available information such as the project ID, acronym, title, description, start and end dates, programme and call details, project status, role of the university, total budget, EU contribution, Bielefeld's share of the funding, and number of participants. Links to project websites and the institutional website are also included.

Reasons for this dataset:

The dataset offers insights into the scope and diversity of Bielefeld University's activities within EU funded research and innovation projects, including its involvement in collaborative initiatives across Europe.

Validity and traceability of information, sources, websites:

The information is based on publicly accessible data provided via CORDIS and the institutional research information system of Bielefeld University (FIS Portal).

Dataset limitations:

Some project entries may contain missing data in certain fields (e.g. detailed financial data). Minor inconsistencies may occur due to the varying availability of information across projects.

Number of rows:

65

Number of columns:

22

Columns:

- Project ID – Identification number of the project
- Project acronym – Acronym of the project
- Status – Status of the project (e.g. ongoing, completed)
- Title – Project title
- Project URL – Primary project website or CORDIS factsheet

- Description – Short project description
- Start date – Project start date
- End date – Project end date
- Organisation name – University name (Universität Bielefeld)
- Organisation name ENG – University name in English
- Organisation ID – ID of the organisation
- VAT number organisation – VAT number of the organisation
- Organisation country – country the organization is located in
- Geographical coordinates – Coordinates of the university
- Organisation URL – University's website
- Programme – Funding programme reference
- Key Action – The specific action line of the call
- Call – Call identifier
- Role of University – Bielefeld University's role in the project (e.g. participant or coordinator)
- Total cost of project – Overall project budget
- EU contribution – Total EU contribution to the project
- EU contribution Bielefeld – Share of EU contribution allocated to Bielefeld University
