

Methodological Notes - UT

Dataset Name:

EU Funded Projects 2021-ongoing

Dataset Description:

This dataset provides an overview of EU-funded projects involving the University of Tours from 2021 to the present (mid 2025). The database lists projects active as of January 1, 2021 or later, which are either still ongoing or completed. It includes projects referenced on CORDIS (mainly Horizon 2020, Horizon Europe, and some EIT actions) and the Erasmus+ Project Results Platform (covering KA1, KA2, and Jean Monnet projects). It also identifies COST Actions. Each entry includes publicly available information: project title, description, dates, funding programme, call topic (if applicable), status, budget, and number of participants.

Authors:

Clémentine Périnaud in collaboration with relevant support units (CMER and DRI).

Reasons for this dataset:

This dataset provides an insight into the UT's activity within the field of international projects and cooperation

Validity and traceability of information, sources, websites:

Except for the two EIT initiatives (UT internal sources), all information within this dataset was sourced from official databases of EU and ERASMUS projects: CORDIS, the Erasmus+ Project Results Platform, the official site for COST actions and the official site for creative Europe projects.

Dataset limitations

Only information available in the above mentioned databases is included in the table and some cells are therefore left blank due to lack of data.

Number of rows:

27

Number of columns:

24

Columns:

1. Project ID – Official project identification number
2. Project acronym – the acronym of the project

3. Status – project status (ongoing or closed at the date of the creation of the dataset)
4. Title – Full project title
5. Project URL – URL leading to the project page
6. Project URL 2 – URL leading to a secondary project page (if applicable)
7. Description – summary of the project
8. Start date – start date of the project
9. End date – end date of the project
10. Organisation name – the name of the NEOLAiA university involved
11. Organisation name ENG – the English name of the NEOLAiA university involved
12. Organisation ID – the NEOLAiA university's ID within the project database
13. VAT Number organisation – the NEOLAiA university's VAT number
14. Organisation country – the country the NEOLAiA university is in
15. Geographical coordinates organisation – the NEOLAiA university's coordinates
16. Organisation URL – the NEOLAiA university's website
17. Programme – the EU funded programme title
18. Key action – the project's key action
19. Call – call title
20. Role of University – the role the university of Tours plays in the project (partner, coordinator, affiliated entity)
21. Total cost – the project's total cost
22. EC Contribution – the EC's contribution to the project
23. Number of partners – the number of participants in the project
