University of Ostrava - Timeline

Dataset Name:

University of Ostrava Timeline

Dataset Description:

This dataset consists of a table containing detailed information on the university's history, mainly notable dates accompanied by relevant photos and links. The table likewise contains geographical information pertaining to the faculties and buildings listed in the dataset. Images within the table contain information on applicable licenses as well as credits linking back to the author of each photo.

Authors:

doc. RNDr. Martin Štěpnička, Ph.D.

Reasons for this dataset:

The dataset is intended to convey information on the university's history and list important milestones throughout its development. It is a key tool for viewing the above-mentioned information in an organised, chronological format.

Validity and traceability of information, sources, websites:

The information was sourced from physical publications, the university's website, and publicly available sources (e.g. laws and annexes establishing the university, thus providing a date for the event) dedicated to the history of the university as well as the city it is located in.

Dataset limitations

The dataset contains all the assigned information.

Number of rows:

There are 11 rows in the dataset , with the first one containing column headings.

Number of columns:

There are 9 columns in the dataset.

Columns:

The following section contains a description of the column content. The column description is preceded by the number and title.

A- Date

This column contains information regarding the date of each significant event in the university's history.

B- Year

This column contains solely the year extracted from the date in column A, to serve as more general information for the milestone.

C- Event name

This column contains the titles of the significant events recorded in the table.

D- Brief event description

This column contains a description of the event listed in column C.

E- Image

This column contains images related to the events listed in column C.

F- Image author

This column contains the names of the authors of column E's images.

G- Image license

This column contains information on licenses for the images in column E.

H- Geographic information

This column contains coordinates for any locations relevant to the events listed in column C.

I- URL

This column contains URLs related to the significant events in the university's history that the table lists.
