Dataset Name:
UNISA International Mobility dataset 2023–2024

Dataset Description:
This dataset contains detailed information on incoming Erasmus+ students hosted by the University of Salerno (UNISA) during the academic year 2023–2024. It includes data on students' home universities and countries, gender, study cycle, mobility period, and associated departments within UNISA.

Authors:
UNISA WP8 Team

Reasons for this dataset:
The dataset was created to support transparency and open science practices within NEOLAiA WP8 activities. It provides insight into international student mobility trends at UNISA, contributing to institutional planning, regional engagement, and broader analysis of Erasmus+ flows.

Validity and traceability of information, sources, websites:
All information has been sourced directly from the official mobility records of UNISA's Internationalization Office.

Dataset limitations
Some fields may be missing for individual records due to data unavailability. In particular, information about the activities carried out during the mobility (e.g., thesis, internship, etc.) may be incomplete or not provided.

Number of rows:
336

Number of columns:
27

Columns:

- **Course of study/ Subject area** – Name of the study program or subject area (in the original language).
- **Course of study ENG** – English translation of the study program or subject area.
- **Course of study type** – Type of study program (e.g., Bachelor's, Master's, PhD) in the original language.
- **Course of study type ENG** – English translation of the study program type.
- **Home University** – Name of the student's home university.
- **Home university geographical coordinates** – Geographic coordinates of the home university.
- **Home university country** – Country of the home university.
- **NEOLAiA University** – Indicates whether the home university is a NEOLAiA Alliance member.
- **Number of male students** – Number of male students involved in the mobility flow.
- **Number of female students** – Number of female students involved in the mobility flow.

- **Number of total students** – Total number of students involved in the mobility flow.
- **Host Facility** – Host department/faculty at UNISA (in the original language).
- **Host Facility ENG** – English translation of the host department/faculty.
- **Host University** – Name of the host university (UNISA).
- **Host University ENG** – English name of the host university.
- **Host university geographical coordinates** – Geographic coordinates of the host university.
- **Host university Country** – Country of the host university (Italy).
- **ISCED** – International Standard Classification of Education code for the subject area.
- **Number of students with National citizenship** – Number of students with Italian citizenship.
- **Number of students with EU citizenship** – Number of students with EU citizenship.
- **Number of students with Non-EU citizenship** – Number of students with non-EU citizenship.
- **Activity: Exams** – Students involved in exam activities.
- **Activity: Thesis** – Students involved in thesis-related activities.
- **Activity: internship** – Students doing an internship.
- **Activity: Exams/thesis** – Students involved in both exams and thesis work.
- **Activity: Exams/internship** – Students engaged in exams and internship.
- **Activity: Thesis/internship** – Students engaged in thesis work and internship.

As for the information about the host university, in this case all data refer to UNISA. However, these fields are useful when merging datasets from all NEOLAiA universities.
