UNISA - DEGREE PROGRAMS 2023-2024 Methodological Notes
Dataset Name:
UNISA - DEGREE PROGRAMS 2023-2024

Dataset Description:
This dataset contains information on active degree programs at the University of Salerno for the academic year 2023-2024. It includes details on the number of enrolled students, categorized by gender and age, along with information on each program, the affiliated department, EQF (European Qualifications Framework), ISCED (International Standard Classification of Education), and geographic coordinates.

Please note that there are also ***784 students enrolled*** in degree programs that are no longer active, and this data has been omitted from the total count in the dataset.

Authors:
WP8 Unisa Team

Reasons for this dataset:
The UNISA - Degree Programs 2023-2024 dataset aims to provide a comprehensive overview of active degree programs, highlighting enrollment statistics by gender and age. This information is crucial for university administration, policymakers, and researchers. By understanding the diversity of the student body, the university can better tailor its resources and support systems to enhance educational outcomes and promote inclusivity.

Validity and traceability of information, sources, websites:
All information in the dataset comes from the Statistical Office of the University of Salerno (UNISA) and has been aggregated to create a comprehensive overview. This ensures the validity and reliability of the data, as it is sourced from an authoritative institutional body.
