Dataset Name:
USV Outgoing International Mobility Dataset 2023–2024

Dataset Description:
This dataset contains detailed information on outgoing Erasmus+ students from Stefan cel Mare University of Suceava (USV) during the 2023–2024 academic year. It includes data on students' study programs, destination universities and countries, gender distribution, types of mobility activities, and citizenship status. Short-term mobilities carried out under Blended Intensive Programmes (BIP), with a duration of 4–5 days, have been excluded from this dataset. This decision was made to ensure analytical consistency and to more accurately reflect international mobilities with significant institutional impact.

Authors:
WP8 "Stefan cel Mare" University from Suceava (USV) Team.

Reasons for this dataset:
This dataset was developed to promote transparency and support open science initiatives within the framework of NEOLAiA WP8 activities. It offers valuable insights into international student mobility patterns at USV, aiding institutional decision-making, enhancing regional collaboration, and contributing to broader analyses of Erasmus+ mobility trends.

Validity and traceability of information, sources, websites:
The data included in this dataset was collected from the internal records of the USV's International Relations Office. These internal references provide verified and institutionally recognized information, ensuring the accuracy and consistency of the dataset.
